### **BE A PART OF ME**

Participating - being a part of it - a question is: when is the moment , the cut from looking at something to be a part of something.

This are the thoughts - the theme of this exhibition.

The four works are different positions, different possibilities to look, to participate or to be a part of something.

Title of the works:

1. walk on me (on the floor)
  2. stay to me (at the wall)
  3. look at me (on a table)
  4. be with me ( in the room and at the wall)
