Betreff: Re: shipping

hi elisabeth...sorry to take so long to get back to you. we have been doing evaluations and other mundane paper work. take up too much time. your work should be shipping out next week.

how is everything else coming along; the new show/installation?
any more thoughts on what we were discussing?

i am very proud of you and your work; your direction and sensitivity to color and space. i know that the hogue gallery is very hard to work with...it is really three or four spaces connected. you did an excellent job in utilizing the space. the space well controlled and there was a feeling of thoughtful humor. i don't think that everyone got it...our students are quite different than students of the "past"...these students are very matter of fact, narrow and conservative. they don't take many chances. so it was good for them to see what happens when an artists is willing to take a chance and deal with what is given them.

i was very happy with the showing.

let me know how you are doing and if you have had time to pursue the possibilities of HILTI. also if the visiting artist thing can be worked out.

take care and keep working.

love
chuck
